

Prism I Conceptual Architecture (C4 L1/L2)

One unified view across IT and OT | Your data stays on your site | Your existing tools stay in place

Four takeaways

- Data stays home
- Your IT team sees OT, one unified view
- Ask questions on demand, no data warehouse
- Reuse existing tools or let Prism stand alone

Legend			
Customer-owned / on-site	Prism component	Data trust boundary / conduit	Operator-zero-access (encrypted store)
